

Qualifications/Training: DipHE Midwifery at De Montfort University, BSC Mentorship Course at Nottingham University, Developing Aspirant Leaders Programme, Mary Seacole Programme

Professional Body: NMC

Years in NHS: 13 years

Shovpreet graduated from De Montfort University and commenced her role as a Midwife at a large acute hospital. Within a year she became an inner city Community Midwife at another large acute NHS provider and advanced to become a Maternity Ward Manager of a 62 bed ward. Within this role she implemented a training programme for midwives in relation to inserting the subdermal implant. Hers was only the 2nd Trust in the country to do this.

Alongside her day to day duties, Shovpreet also secured funding to develop a discharge video for patients in the top 5 languages within the city she worked in and developed a training package to target cultural competency for multi disciplinary teams within maternity services.

In September 2022 she commenced in post as a Senior Quality Assurance Officer with 360 Assurance. She is keen to use her clinical experience to improve patient safety and promote equality and diversity.
