

Registered General Nurse, BSc (Hons) Specialist Nursing (Tissue Viability), MSc  
Healthcare Governance

Professional Body: NMC

Years in NHS: since 1985

Lynne qualified as a Registered General Nurse in 1988. Her early career was dominated by her passion for orthopaedic nursing. In 1996 this led to her specialising in Tissue Viability, setting up a new acute service in Birmingham. Experience in this role led to a keen interest in audit, with a focus on improving patient experience. Since 2008 Lynne has worked in acute, community and mental health care settings leading patient experience and quality improvement services. Lynne began her clinical quality bank role for 360 Assurance in February 2023
